

Clark Forklift

Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive models of lift trucks, with components covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most impressive dealer support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering protection features such as the operator restraint system. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark has a continual objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Resource Efficient Manufacturing

Clark has chosen the very economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This structure was established to acknowledge the most effective method of production plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engine Design

Clark's product engineers and suppliers join together to enhance the efficiency and excellence of their merchandise while minimizing expenses. The contemporary value engineering program combines innovative product improvement and provides superior consumer support and service within the industry.
